

November 24, 2014

To our valued Motor Carriers in NERP,

In accordance with the initiative set forth by the Port of New York and New Jersey to prepare for this winter by putting in place a Winter Weather Plan, Flexi-Van Leasing, Inc would like to confirm our participation with regard to the following:

Free Time & Per Diem

In the event that a joint decision is made for all container terminals to close for the entire day due to inclement weather:

Intermodal Equipment Providers have agreed to waive per diem charges for the day of the port closure for all chassis on daily or pool usage agreements provided that they are returned to an authorized Stop Location within 24 hours of the closure. The above does not apply to chassis on term lease agreements.

Please note that the relief for per-diem charges due to the above applies to NERP chassis only. There will be no relief granted for term lease agreements. Any relief for FlexiDay® rentals will be determined separately and on a case-by-case basis in accordance with any closures that may take place at our facility due to inclement weather.

The Port's Winter Weather Plan in its entirety can be viewed here: <http://www.panynj.gov/port/weather-plan.html>

Sincerely,
Flexi-Van Leasing, Inc.
